

WIMM MONDAY SEMINARS
Michaelmas Term 2013
WIMM Seminar Room
1pm

OCTOBER

- 07 **Inke Nathke**
Professor of Epithelial Biology, Cell & Developmental Biology, Dundee Cancer Centre
“Changes in cell and tissue architecture produced by mutations in Adenomatous Polyposis coli in early stages of colon cancer”
Host: Doug Higgs
- 14 **Claus Nerlov, Tudor Fulga, Tatjana Sauka-Spengler, Peter McHugh and Roger Patient**
Weatherall Institute of Molecular Medicine
“Model systems available in the WIMM”
Host: Roger Patient?
- 21 **Dimitri Kullmann**
Department of Clinical and Experimental Epilepsy, Institute of Neurology, University College London
“Gene therapy for experimental epilepsy”
Host: David Beeson
- 28 **David Lomas**
“Unravelling the twists and turns of the serpinopathies”
Dean of the Faculty of Medical Sciences, University College London
Host: Doug Higgs

NOVEMBER

- 04 **Professor Craig Jordon**
Georgetown University medical Center, Washington.
“Evolution of Endocrine therapy for Breast cancer - the Paradox of Estrogen Induced Apoptosis”
Host: Doug Higgs
- 11 **Professor Eicke Latz**
Institute of Innate Immunity Biomedical Center, University of Bonn
“Inflammasome activation in sterile inflammation”
Host: Jan Rewinkle
- 18 **Professor Adrian Hayday**
Head of Division of Immunology, Infection & Inflammatory Diseases, King’s College London
“New perspectives gained from murine and human neonatal immunology”
Host: Enzo Cerundolo
- 25 **Dirk Schubeler**
Friedrich Miescher Institute for Biomedical Research, Basel/Switzerland
“Attempts to decode the epigenome”
Host: Maria Suci

DECEMBER

- 02 **Peter Rugg-Gunn**
Epigenetics ISP, Babraham Institute, Babraham Research Campus, Cambridge
“Chromatin Organisation in Embryonic Stem Cells”
Host: Maria Suci
