

DEPARTMENTAL SUMMER VACATION STUDENTSHIP

Due to the generous support of alumni, the Biochemistry Department will fund the award of £200 per week (up to a maximum of £1600) annually to up to 2 students wishing to work in a research laboratory over the summer vacation.

1. The studentship is available only to students registered on the M Biochem. course in Oxford, and wishing to work in a research group within the Biochemistry Department in Oxford.
2. The application should be made by the student, and should include
 - a) name, college, year of course of the student, proposed dates of the project.
 - b) a brief statement by the student indicating why they are interested in this project
 - c) a brief statement of support by the proposed laboratory head

(a, b and c together should take up less than 1 side of A4)
3. Preference will be given to students who have applied for funding from an outside body for the same period. However, the Departmental Studentship cannot be held concurrently with a Vacation Studentship awarded by any other body, and if such an award is made, the Departmental Studentship will pass to the next eligible candidate.
4. Preference will be given to students taking up the studentship between their second and third years of study. Otherwise the award will be allocated by random ballot.
5. Applications must be submitted to the Teaching Office by noon, Friday Week 0, Trinity term.
6. The student will be required to submit a report of the project by the start of Michaelmas term to the Teaching Office.
